

McAfee Total Protection for Small Business

The always on, always up-to-date, single solution for protecting your business

New threats emerge every day. Spam, phishing, viruses, and hackers can steal your valuable data and disrupt your network. Without constant updates, your anti-virus and security software becomes obsolete. Keeping your small business continuously up to date requires total protection against all types of known and unknown threats.

Total protection means a comprehensive security solution that is always on, always ready, and always up to date—not just in the office, but also when remote. McAfee® offers small businesses the industry’s first truly integrated security solutions, managed by a single console, and at affordable prices. Delivered as a McAfee-hosted single solution, both versions of McAfee Total Protection for Small Business protect against viruses, spyware, spam, hackers, and identity thieves.

	Total Protection for Small Business—Advanced	Total Protection for Small Business
Single management console	✓	✓
Desktop and file server anti-virus and anti-spyware	✓	✓
Desktop firewall	✓	✓
E-mail anti-spam and anti-virus service	✓	
E-mail server anti-virus	✓	

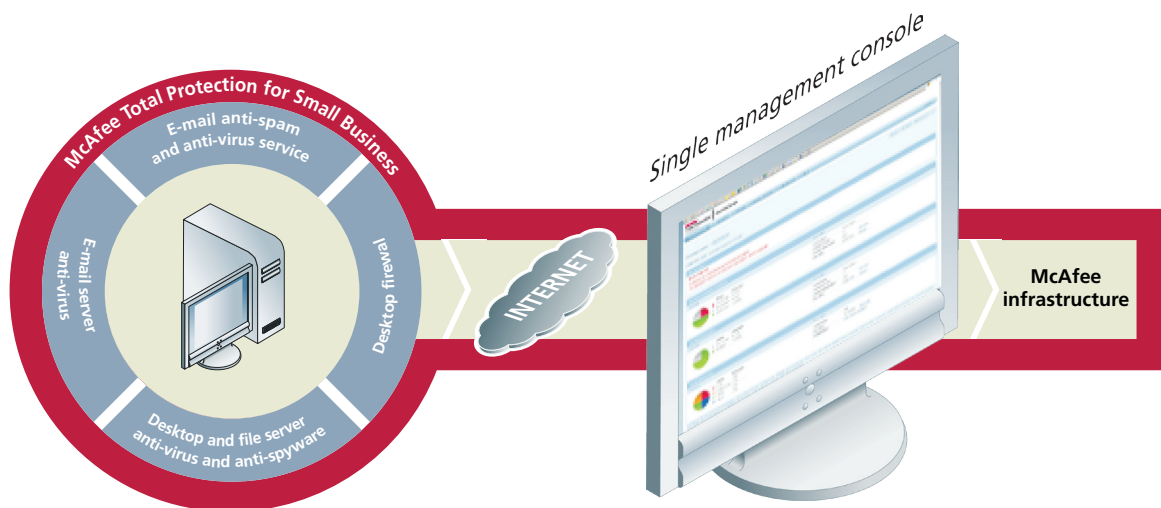

Proven Technology

Both McAfee solutions make it easy to simplify your security with proven technology:

- **Single management console**—the easy-to-use, Web-based, McAfee SecurityCenter—for remote monitoring and reporting
- **Integrated desktop and file server anti-virus and anti-spyware** automatically secures your systems from known threats and potentially unwanted programs, and also provides basic e-mail protection for Outlook applications
- **Centralized desktop firewall** is an immediate barrier between your critical data and malicious intrusions
- **Advanced e-mail anti-spam and anti-virus service** provides always up-to-date e-mail protection that improves availability and assures business continuity
- **Advanced e-mail server protection** stands guard over your mail servers with virus protection and content filtering

Security in One Solution

Total Protection for Small Business—Advanced and Total Protection for Small Business are single, integrated software services that include virus, spyware, spam, phishing, and desktop firewall protection, all in one easy-to-install and easy-to-use solution.

Simplified Management

McAfee SecurityCenter, the easy-to-use, single Web-based console, manages and reports on your security services. It centralizes installation, configuration, reports, updates, and group management, and makes security management simple.

Automatic Updates for Desktop and Server Protection

Without any intervention, Total Protection for Small Business—Advanced and Total Protection for Small Business automatically update systems at regular intervals. These fast updates keep your desktops, servers, and e-mail proactively protected against security threats.

Real-Time E-Mail Security

Total Protection for Small Business—Advanced processes e-mail in real time through a highly secure system. We filter and quarantine inbound threats from your e-mail before they reach your network. Compatible with all major e-mail applications, such as Microsoft® Exchange, the system processes your mail with less than a one-second delay. Alternately, McAfee offers e-mail server virus protection for users who would like to monitor e-mail security in-house—easy to install, quick to protect.

Affordable and Easy

For an annual subscription fee, you can obtain automated virus, spyware, spam, phishing, and desktop firewall protection, Web-based management and reporting, and around-the-clock technical support. There is no need to buy additional security management software, hardware, or technical support, or hire dedicated IT staff. McAfee makes your system security affordable and simplified.

Free 30-Day Trial

You can experience the value of Total Protection for Small Business with a free 30-day trial. Visit http://www.mcafeesasap.com/intl/EN/content/managed_services/trial_landing.asp

24/7 Technical Support

All Total Protection for Small Business subscriptions include 24/7 McAfee Gold Level Technical Support for easy access to trusted security expertise by phone, chat and e-mail.
